INTRODUCTION

“The fear of the LORD is the beginning of wisdom: and the knowledge of the HOLY ONE is Understanding. A wise man will hear and increase in learning; and a man of understanding shall attain unto wise counsels. Give instruction to a wise man, and he will be yet wiser: teach a just man, and he will increase in learning. Riches and honour are with me; yea, durable riches and righteousness. My fruit is better than gold, yea, than fine gold; and my revenue than choice silver. I lead in the way of righteousness, in the midst of the paths of judgment: That I may cause that love me to inherit substance; and I will fill their treasures. For by me thy days shall be multiplied, and the years of thy life shall be increased.” **GOD (Proverbs 1:5; 8:18-21; 9:9-11)**

It is supposed that a greater prosperity for individuals or nations can only come through a political and social reconstruction. This cannot be true apart from the practice of the moral virtues in the individuals that comprise a nation.

Better laws and social conditions will always follow a higher realization of morality among the individuals of a community, but no legal enactment can give prosperity to, nay it, cannot prevent the ruin of, a man or a nation that has become lax and decadent in the pursuit and practice of virtue.

The moral virtues are the foundation and support of prosperity as they are the soul of greatness. They endure forever, and all the works of man which endure are built upon them. **Without them there is neither strength, stability, nor substantial reality, but ephemeral dreams.** To find moral principals is to have found prosperity, greatness, truth, and is therefore to be strong, valiant, joyful and free.

James Allen-“Eight Pillars of Prosperity”

“I am the light of the world: he that followeth me shall not walk in darkness, but shall have the light of life. For I am come that you might have life, and that you may have it more abundantly.”

JESUS CHRIST (**John 8:12; 10:10**)

Folks it is time for the Day Star of Divine Truth to Arise in Core of Our Minds and in Our Hearts.

Who said that you have to be an active participant in a satanic economic system (**the rat race**) that is broken and designed for your failure and perpetual dependency on the charity of some corporation or government agency.

Satan is a liar and the father thereof. Has not **GOD** said that the silver and gold is mine. (**Haggai 2:8**)

Has not **GOD** said that I have given you the power to acquire wealth and great substance, in accordance to your adherence to **THE HEAVENLY FATHER LAWS, which are not grievous but they exist for our benefit.**

(**Deuteronomy 8:18 & Deuteronomy 6:2-9, 24-25**)

Times have definitely changed and so has its currency.

Yes, knowledge is power, and for the individual who learns how to effectively produce, share, and market, his/her valuable knowledge, freedom and prosperity awaits.

Knowledge is the new currency of this new Information Age.

The internet “aka” the information highway has created for us, whole new vistas of ways to create and expand upon our wealth creation prowess.

Enhancing your level of competency regarding the principles of wealth creation in this 21st Century, is the greatest gift, you could give to yourself, and your family.

The level of compensation one receives is always commensurate to the level of value one provides!

Money is a reward system for problem solving.

One the greatest gifts that **GOD**, has given to man is the ability to think and reason.

I mean we can analyze, assess, adjust, and correct.

We as human beings have the power to shape our worlds, and affect the reality we experience in them, by simply enhancing our level of thinking, speech, and conduct.

“Strong, pure, and happy thoughts build up the body in vigor and grace. The body is a delicate and plastic instrument, which responds readily to thoughts by which it is impressed, and habits of thought will produce their own effects, good or bad, upon it.”

Impoverished thinking will keep you broke and in the tank.

Our brains will feast on whatever we feed them.

Ascension doesn't just happen by happenstance.

Wealth Creation in this 21st Century will be determined by, your ability to identify and align yourself with abundance minded individuals who are already experiencing the success you desire.

Why invent mediocrity when you can emulate greatness?

Seek wisdom, acquire knowledge, and immediately implement what you learn.

Become a student of life enrichment and a master student of wisdom.

You will notice a common theme when you begin to study the lives of the exceptional and extraordinary.

They like those of their day and time had to endure great adversity, trials, and test.

But, instead of going along with the status quo and accepting defeat.

They used their adversity to build both their faith and character.

Pain and struggle are life's purifiers they force us to re-examine our motives and intentions.

They also force us to pursue HE who has designed us for HIS divine intent.

“Riches and honor are with me; yea durable riches and righteousness. My fruit is better than gold, yea fine gold; and my revenue than choice silver. I lead in the way of righteousness, in the midst of the paths of judgment; That I may cause those that love me to inherit great substance (wealth) and I will fill their treasures.”

GOD (Proverbs 8:18-21)

So as I conclude this article on the **Secrets to Wealth Creation in this 21st Century**.

I want to share these kingdom truths with you.

There are three main reasons while people remain in a perpetual state of peril and victimization.

THE PERPETUAL ADVANTAGE: 21ST CENTURY BUSINESS & LIFE SUCCESS SYSTEMS: TOP 7 BUSINESS MODELS FOR 21ST CENTURY WEALTH CREATION REPORT

Reason #1-They are void of Wisdom and Understanding and have absolutely No Knowledge of what the TRUTH is.

Reason#2-They are fascinated with fallacy and their eye's are fixated on fiction. So when the TRUTH is presented unto them they cannot recognize HIS Absolute Depiction. So they remain blind...No Vision!

Reason#3-They are ignorant and instead of addressing their issue of depravity and seeking out the SOLUTION. They ignore HIM and receive their just recompense for such a lethal FOLLY.

“The thief cometh not, but for to kill and destroy; I am come that you might have life and that you might have it more abundantly. But seek ye first the kingdom of GOD, and his righteousness; and all these things shall be added unto you.”

CHAPTER TWO

THE FIRST BUSINESS MODEL IS AFFILIATE MARKETING

Affiliate Marketing has many descriptions, yet all have the same meaning. Affiliate marketing is a huge business piece on the Internet. It is a cooperative effort between merchants and an affiliate's website. For many years now, affiliate marketing has proved to be a cost-efficient, measurable method of delivering long-term results. It has become famous for Internet sites who are trying to make some extra or additional income for their site. Every day, people get interested in affiliate marketing and want to make money out of it.

One of the common misconceptions that are being associated about affiliate marketing is "selling", though selling is an important activity of affiliate marketing and the central function of a business operation. Another is that affiliate marketing is commonly linked with "advertising". While the importance of advertising in marketing a certain product is not to be underestimated, the fact of the matter is, advertising like selling, is merely a part of the many functions of marketing.

In affiliate marketing, an affiliate is compensated for every visitor, subscriber and/or customer provided through his efforts. That said compensation may be made based on a certain value for each visit. The most attractive aspect of affiliate marketing from the merchant's viewpoint is that no payment is due to an affiliate until results are rendered.

Affiliate marketing is typically being run by affiliate networks and this affiliate networks are composed of two functional bodies, the group affiliates and the group merchants. Affiliate networks like Clickbank, PayDotCom.com, Commission Junction, Amazon, and SFI are a few to say the least. Each has their special function and role when it comes to affiliate marketing.

The affiliate network acts as a third party between the merchant and the associated affiliates. The network provides the technology to deliver the merchant's campaigns and offers.

The affiliate network also collects commission fees from the merchant and then pays the affiliates which are part of the program.

The merchant is any web site owner that wants or desires to take advantage of performance based marketing. The benefits to the merchant are many. First, the merchant maintains and operates the affiliate program. If it would be extracted, the merchant needs to do their part by researching interested affiliate websites to ensure that they are a good fit for that particular website.

Finding a fit for their merchandise would be the key to more generated income. The merchant has access to markets and customers without him spending valuable time searching out. Banner ads on affiliate sites are not distracting to the site user. It might produce interest for that product and drive the consumer to the merchants' website. It is also the merchant who decides how much he is willing to pay for each sale that results from a visitor sent from an affiliate.

The affiliate or the affiliate marketer also sees a lot of benefits. The affiliate is a web site owner that promotes one or more merchants and their affiliate programs. Affiliate marketing can generate a full-time income for the affiliate.

Once you are engaged in the affiliate marketing business, it is advisable that you have multiple streams of affiliate marketing income so that if one of those income streams vanished, it will not upset you the way losing your sole stream would. If you depend on just one source of income and this single stream evaporates, you'll surely find yourself bankrupt and hopeless. Try to ask the most successful online entrepreneurs, and you'll discover that they have established multiple streams of online income.

THE PERPETUAL ADVANTAGE: 21ST CENTURY BUSINESS & LIFE SUCCESS SYSTEMS: TOP 7 BUSINESS MODELS FOR 21ST CENTURY WEALTH CREATION REPORT

So the secret to creating inexhaustible streams of income via affiliate marketing is to assess or evaluate your resources. Start by assessing yourself first. Jot down your answers to the following questions: What are the talents, abilities, strength and gifts that you possess? Are you gifted with excellent and creative writing skills?

Can you do well at sales?

Are you good in communicating with people? Are you born with an artistic skill or unique ability that other people don't have? Through this, you can determine the kind of business that you can excel at.

Next, look around and write down all your assets and physical resources such as computer, color printer, scanner, digital camera, cell phone, CD or DVD burner. Write these all down because it can be used as a resource. Consider also your friends and family. Find out what do they possess that you have access to. Remember that no man is an island. You can use the talents, abilities, knowledge and resources of everyone you know.

Being involved in affiliate marketing is one of the most desirable ways to make and generate multiple streams of income. It is because affiliate marketing programs come in various shapes and forms. There are a large number of affiliate marketing programs that you can sign on with and start gaining bucks right away.

In affiliate marketing, you can make money by promoting and reselling your affiliate products and by recruiting new affiliates. What's good about this is that you can find a wide array of training materials that can enhance your marketing abilities. In affiliate marketing, you can be sure that there are genuine products to promote and sell and there is real income to make.

The seventh business model for 21st Century Wealth Creation is Multilevel Marketing or Network Marketing.

This popular model has garnered both cheers and jeers for its ability to assist aspiring entrepreneurs in realizing their financial goals, as well as disappointing others, who truly have no idea or concept of what it will take for them to succeed at their preferred network marketing endeavor.

Multilevel marketing (MLM) is a marketing strategy in which the sales force is compensated not only for sales they personally generate, but also for the sales of others they recruit, creating a down-line of distributors and a hierarchy of multiple levels of compensation. Other terms for MLM include network marketing, and referral marketing, not to be confused with the actual referral marketing.

Most commonly, the salespeople are expected to sell products directly to consumers by means of relationship referrals and word of mouth marketing. As a result, some people conflate [MLM](#) with direct selling, although [MLM](#) is only one type of direct selling.

[MLM](#) companies have been a frequent subject of criticism as well as the target of lawsuits. Criticism has focused on their similarity to illegal pyramid schemes, price-fixing of products, high initial start-up costs, emphasis on recruitment of lower-tiered salespeople over actual sales, encouraging if not requiring salespeople to purchase and use the company's products, potential exploitation of personal relationships which are used as new sales and recruiting targets, complex and sometimes exaggerated compensation schemes, and cult-like techniques which some groups use to enhance their members' enthusiasm and devotion.

I have come across two outstanding online and network marketing companies that toss the above criticism out the door and they are [Pure Leverage](#) which gives you the opportunity to share and market a complete suite of online products that every entrepreneur who desires to succeed online needs to increase both their market share and profit totals. This is a definite must have!

And the other outstanding network marketing business opportunity is [4 Corners Alliance Group](#). [4 Corners Alliance Group](#) is a [Financial Literacy Enhancement Company](#) that educates its affiliates on the subjects of economics and how to build and create wealth successfully and compensates its network marketing distributors handsomely for sharing and educating themselves, while sharing their financial literacy enhancements products, which are digital, with family, friends, and clients.

Not all [MLM](#) companies operate the same way, and [MLM](#) groups have persistently denied that their techniques are anything but legitimate business practices.

The opposite of [MLM](#) is single-level marketing. In single-level marketing, the salesperson is rewarded for selling the product, but not for recruiting or sponsoring other salespeople.
